EXPERIENCE

Lead Product Owner | RevivaLTV

September 2021 - Present, Jakarta, Indonesia

• Leading Product Teams to develop and coordinate a successful development, of product initiatives.

• Collaborate with a cross-functional team of engineers, designers, data analysts, and content producers.

• Execute Scrum & agile methodology processes to deliver high-quality products to the market.

• Ideate, Planning & Managing the product development of RevivaLTV.

Product Owner | RevivaLTV

April 2021 - September 2021, Jakarta, Indonesia

• Ideate, Planning & Managing the product development of RevivaLTV.

• Defined and prioritized the product features and requirements, and delivered product value to the market.

• Improving product development processes to meet product vision and strategy for a roadmap delivery by creating and prioritizing product backlog, daily standup, sprint planning, and sprint retrospective.

Head of IT Department | RevivaLTV

January 2020 - April 2021, Jakarta, Indonesia

• Led the development and management of all aspects of the company's information technology, including networking, hardware, and software.

• Planned, directed, and coordinated all information technology-related activities, including research, design, and development.

• Manage RevivaLTV technology assets including but not limited to: Network and communications equipment, Servers, Desktops, Laptops, Printers, Phone Systems, Security Cameras, and Software Licenses.

Full-Stack Web Developer | RevivaLTV

July 2018 - January 2020, Jakarta, Indonesia

• Developed an internal website for RevivaLTV and an external website for the client using advanced CSS, jQuery and JavaScript, and PHP/Laravel.

• Optimized web pages to meet Google Page Speed Insights standards by reducing the number of HTTP requests and implementing LiteSpeed to handle high-volume traffic.

• Maintaining uptime of RevivaLTV servers by monitoring metrics of CPU usage, network traffic, memory usage, and disk space.

PROJECTS

Jakarta Football School Website | Jakarta Football School

March 2020 - April 2020

• Ideate, Design, and Develop the Jakarta Football School website with Laravel PHP framework to help publicize Jakarta Football School and simplify student registration processes.
• Successfully delivered the project on time and within budget, exceeding customer expectations.
• Received positive customer feedback for the website's intuitive design, ease of use, and overall functionality.

Aerowolf Pro Team Website | **Aerowolf Pro Team**

January 2020 - February 2020

• Create an Aerowolf Pro Team Website UI Design & Mockup/Prototype using AdobeXD, Illustrator, and Photoshop in a span of two weeks.
• Developed a website using Laravel PHP, HTML, Bootstrap CSS, and JavaScript, to present the team's achievements, members, and sponsors to the general public.

Supercell Gamers Day Website | **Supercell**

September 2019 - October 2019

• Designed, developed, and deployed a website to provide information about events, and to allow users to register for events. Used Laravel PHP, HTML, Bootstrap CSS, and JavaScript.
• Designed a registration system to store user data in a database, using custom backend filtering to help manage event registrations, resulting in more event registrations and easier to manage registration data.
• Increased website security by implementing an SSL certificate, and by setting up a secure login system.

PUBG Mobile Indonesia Championship 2019 Website | **Tencent**

June 2019 - July 2019

• Ideated and designed a PUBG Mobile Indonesia Championship 2019 website for the purpose of presenting information about the tournament and also for registration.
• Create a website for an e-sport event, PUBG Mobile Indonesia Championship 2019 using Laravel PHP, HTML, Bootstrap CSS, and JavaScript.
• Developed registration module with custom regional filtering based on National ID number.
• Implemented a live scoreboard to update in real-time during the tournament.
